# Interpreting Infrared Raman And Nuclear Magnetic Resonance Spectra

**interpretation of infrared spectra, a practical approach** - 2 infrared spectroscopy mind is that a successful interpretation is based not only on the presence of particular bands within the spectrum, but also the absence of other important bands. complete classes of compounds can be rapidly excluded during the interpretation by the use of no-band information. it must be understood that this article addresses **overview of methods and challenges for microplastic analysis** - overview of methods and challenges for microplastic analysis jes vollertsen, professor of environmental engineering, aalborg university
