uc san diego ...** - "leibniz's philosophical dream"1 translated by donald rutherford i was satisfied with what i was among men, but i was not satisfied with human nature. i often considered with chagrin the hardships to which we are subjected, the shortness of our life, the vanity of glory, the improprieties that are born of sensual pleasure, the **modality, compatibilism, and leibniz: a critical defense** - indeed, god appears to play a central role in much of leibniz's philosophy, securing for him such elements as a reason that there is something rather than nothing, a solution to the problem of evil, a model for his theory of monads, and a way to avoid necessitarianism. in much of his correspondence and in his philosophical writings, leibniz's **leibniz's metaphysics of time and space** - topics, some specific to leibniz's philosophy, some not. two examples of the latter: first, in chapter 6 i argue that leibniz adopts certain key components of what is commonly termed the "b-theory" of time. second, in chapter 8, i place leibniz's views on space and time in the context of his natural theology by examining the **leibniz and china - assets** - point to show that leibniz's philosophy might still provide elements of a foundation for cultural exchange. these philosophical and historical goals have required more than just a description of what leibniz wrote about china. on one side, i have tried to show how leibniz's engagement with china emerges from a tradition **leibniz on force and absolute motion**. - leibniz on force and absolute motion* john t. roberts i elaborate and defend an interpretation of leibniz on which he is committed to a stronger space-time structure than so-called leibnizian space-time, with absolute speeds **leibniz's ultimate theory - philschi-archive** - leibniz's ultimate theory soshichi uchii abstract this is a short summary of my new interpretation of leibniz's philosophy, including metaphysics and dynamics. monadology is the core of his philosophy, but according to my interpretation, this document must be read together with his works on dynamics and geometry analysis situs, among others. **james messina (ucsd) and donald rutherford (ucsd) abstract** - leibniz's well-known thesis that the actual world is just one among many possible worlds relies on the claim that some possibles are impossible, meaning that they cannot belong to the same world. notwithstanding its central role in leibniz's philosophy, commentators have disagreed about how to understand the compossibility relation. **leibniz's more fundamental ontology: from overshadowed ...** -
